

## **COP27 GABC Building event Nature-based solutions for building performance**

Title: Nature-based solutions for building performance : feed-back from schemes implementation and perspectives for nature positive 2030

Day: 16 November, 9:00-10:00 Eastern European Time (UTC-2)

Location: Blue zone – Buildings Pavilion (Zone C, Area 5, lot n. 113)

Event organisers: FIDIC, Energies 2050

Type: Hybrid and livestreamed (Vimeo link: <https://vimeo.com/event/2552858>)

### **Event description:**

Buildings can benefit from nature-based-solutions (NBS) to deliver their services and can contribute to the achievement of a global goal to be nature-positive by 2030. Bringing more and more diverse nature to buildings and their infrastructure is crucial to addressing joint challenges of climate and biodiversity loss. This event features dynamic presentations from different practitioners and a panel discussion highlighting diversity of local to international perspectives on buildings key challenges, opportunities and pathways for nature 2030.

What are the so called « Nature positive 2030 » and « IUCN global standard for NBS » ? Which NBS can support buildings in delivering their services ? How NBS can contribute to the achievement of a nature positive goal ? Are there actors and enablers for the building NBS mainstreaming ?

This session will explore different point a view on these challenges, with a panel of 6 speakers and one moderator.

### **Detailed proposal**

Moderation of the event: Idriss KATHRADA - Inoal CEO – Fidic SDC

9 :00 Opening remarks

Nature positive 2030, IUCN global standard for NBS, building performance

9 :10

Robert SPENCER, Global ESG Leader AECOM, FIDIC SDC Vice-President

Roland HUNZIKER, Director, Built Environment WBCSD

Mohamed NBOU - Head of the Climate Division - UCLG Africa

Jesus Iglesias SAUGAR - EU Climate Pact ambassador – Prof. IUCN NBS standard

Ewa IWASZUK, H2020 Project manager, Ecologic Institute (tbc)

Stéphane POUFFARY - CEO ENERGIES 2050

10:00 End of the event
