

# 2<sup>nd</sup> Global summit on climate change and Environmental sustainability

*Theme: Green Technologies for a Green Future: Advancing Sustainability  
in the Face of Climate Change*

*Sep 08-09  
2025*

*📍 Paris, France.*

## About Conference

The Times Scientific Group is delighted to announce the "*2nd Global Summit on Climate Change and Environmental Sustainability*," scheduled to take place on **September 08-09, 2025, in Paris, France.**

### A Defining Moment for Climate Innovation

The world is on the brink of a technological revolution in sustainability. Scientific breakthroughs in biotechnology, artificial intelligence, nanomaterials, and advanced materials science are rapidly reshaping how we combat climate change. The 2nd Global Summit on Climate Change and Environmental Sustainability is not just a conference—it is an accelerator for transformative solutions that will redefine environmental resilience and global sustainability.

This is a call for the visionaries, the disruptors, and the pioneers—those who are engineering the future through AI-driven climate modeling, bioengineered ecosystems, smart materials for carbon capture, and quantum breakthroughs in renewable energy.

### Shaping the Future Through Scientific Convergence

- **AI & Machine Learning for Climate Action** – From predictive analytics to real-time environmental monitoring.
- **Nanotechnology & Advanced Materials** – Smart solutions for pollution control, energy storage, and sustainable materials.
- **Biotechnology for Environmental Resilience** – Microbial engineering, bio-based solutions, and synthetic biology for climate adaptation.
- **Sustainable Energy & Circular Economy** – Harnessing cutting-edge innovations for a carbon-neutral future.

### Why This Summit Matters

- Lead the global conversation on AI-driven sustainability.
- Engage in high-impact collaborations with leading experts.
- Showcase groundbreaking research that pushes the boundaries of climate science.
- Drive actionable change through interdisciplinary innovation.

### This is More Than a Conference—It is a Global Call to Action

The world cannot afford incremental progress. The time for radical, science-driven climate solutions is now. Paris 2025 will be the global epicenter of innovation, where the sharpest minds in AI, nanoscience, and biotechnology unite to forge the future of sustainability.

### Be part of this transformative movement.

Abstract Submissions & Registration Now Open:

### Submit Your Abstract

### Register Now

We look forward to welcoming you to an event that will set the course for the next era of sustainability science and technology.

## Sessions

- Advances in Climate Science and Modeling
- AI and Big Data in Climate Forecasting
- Remote Sensing and Satellite Monitoring of Climate Variables
- Geo spatial Technologies for Environmental Analysis
- Environmental Biotechnology for Sustainable Systems
- Tropical Ecosystems and Environmental Biology
- Agrobiodiversity and Sustainable Agroecology
- Conservation Strategies for Endangered Species
- Soil Ecology and Contamination Management
- Landscape Ecology and Habitat Restoration
- Water Security in a Changing Climate
- Marine Ecology and Ocean Biodiversity Protection
- Ecotoxicological Effects of Marine and Freshwater Pollutants
- Plastic Pollution, Ocean Cleanup, and Coral Reef Conservation
- Renewable Energy for Sustainable Development
- CO2 Capture, Storage, and Carbon Management
- Circular Economy and Resource Efficiency
- Sustainable Energy and Material Flow Management
- Green Technology and Climate Innovation

- Climate Change and Public Health Risks
- Social Sustainability and Community Resilience
- Sustainable Urban Development and Smart Cities
- Indigenous Knowledge and Climate Adaptation
- Youth Leadership in Climate Action
- Climate Risk, Policy, and Legal Frameworks
- Climate Justice, Equity, and Inclusion
- Environmental Policy and the SDGs
- Global Climate Governance and Diplomacy
- Local Governance and Community-Based Adaptation
- Disaster Risk Reduction and Climate Resilience
- Natural Hazards and Emergency Preparedness
- Infrastructure Resilience in Extreme Weather Events
- Green Finance and Climate Investment
- Corporate Sustainability and ESG Integration
- Behavioral Change for Climate Action: Psychology, Culture, and Communication

## Schedule

### Day 1 September 08, 2025

Time	Sessions
08:00 - 09:00	Registrations
09:00 - 09:30	Opening Ceremony
09:30 - 10:30	Keynote Session
10:30 - 11:00	Refreshment Break
11:00 - 12:30	Keynote Session
12:30 - 13:30	Lunch Break
13:30 - 15:00	Speaker sessions
15:00 - 15:30	Refreshment Break
15:30 - 18:00	Speaker sessions

### Day 2 September 09, 2025

Time	Sessions
09:30 - 10:30	Keynote Session
10:30 - 11:00	Refreshment Break
11:00 - 12:30	Keynote Session
12:30 - 13:30	Lunch Break
13:30 - 15:00	Speaker sessions
15:00 - 15:30	Refreshment Break
15:30 - 17:00	Poster sessions
17:00 - 17:10	Closing Ceremony

## KEY DATES

Early Bird Abstract Submission	June 13, 2025
Early Bird Registration	June 16, 2025
Final Call Registration	July 28, 2025

## REGISTRATIONS

Category	Price
Speaker	\$599
Delegate/Listener	\$649
Exhibitor	\$1499

### Abstract Submission

<https://www.timesscientificgroup.com/events/climate-change-environmental-sustainability/submit-abstract>

### Registration

<https://www.timesscientificgroup.com/events/climate-change-environmental-sustainability/registration>
